

DECKING

Transform Your Outdoor Space Into Something Beautiful

Beautiful Decks. Practical Choices.

Whether it's a brand-new deck or a rebuild of an existing one, Anders Supply & Landscaping LLC can help create an exterior space that adds beauty, function, and a place to enjoy the outdoors.

WOOD DECKING

Wood decking offers timeless beauty and natural warmth that enhances any outdoor living space. Available in a variety of wood species, it can be customized with stains and finishes to match your home's style while creating a welcoming space for relaxing, entertaining, and enjoying the outdoors.

COMPOSITE DECKING

Composite decking combines the natural appearance of wood with the durability of modern materials. Designed for low maintenance and long-term performance, it resists fading, staining, moisture, and everyday wear, making it an excellent choice for beautiful outdoor living spaces.
